

# **India and EU to launch an investment facilitation technique in May**

Currently, the India and EU high-level trade group meeting was led by Piyush Goyal, Commerce and Industry Minister and European Commission Valdis Dombrovskis. Both the groups decided to launch an investment facilitation technique in May 2021. The top agendas probably will be the continuation of the Intellectual Property Rights (IPR) dialogue, promoting a clean economy, collaborating in Research and Innovation, discussing multilateral issues of mutual interest, and building resilient value chains.
