

OnePlus Watch Cobalt Limited Edition Finally launched In India Today

The OnePlus Watch Cobalt Limited Edition is ready to go on sale in India from today onwards. The wearable comes with a leather buckle strap and gold and black accents. It will be available on the One Plus store app, One Plus experience stores and the One Plus website.

The smartwatch bundles a special edition version of the OnePlus Watch that has cobalt alloy in its middle frame instead of stainless steel like the original OnePlus Watch. The cobalt alloy is said to offer a more durable and studious look. Apart from this, the OnePlus Watch Cobalt Limited Edition has similar specifications to the OnePlus Watch.

OnePlus Watch Cobalt Limited Edition offers and price in India

The OnePlus Watch Cobalt Limited Edition is priced at 19,999. The launch offer includes Rs. 1,000 off on HDFC Bank credit card and EMI transactions, 5 per cent cashback on select American Express cards. The smartwatch is also available for no-cost EMI for three months with HDFC Bank cards.

Specifications of OnePlus Watch Cobalt Limited Edition

The OnePlus Watch Cobalt Limited Edition has similar features as a regular watch. The watch case is made of cobalt alloy, a special hypoallergenic material that is touted to be twice as hard and more corrosion-resistant than traditional stainless steel.

The watch also bundles a 1.39-inch HD (454×454 pixels) AMOLED display. Just like the regular OnePlus Watch, the new OnePlus Watch Cobalt Limited Edition offers seamless connectivity with

OnePlus phones and allows users to adjust their phone's settings through the wearable.

The OnePlus Watch Cobalt Limited Edition features specially treated sapphire glass and a Mohs rating of 9 for increased brightness and exceptional scratch resistance respectively. The smartwatch carries 110 workout modes. It has health-focused features like SpO2 monitoring, stress detection, breathing, rapid heart rate alert and sedentary reminder.

The wearable comes with a 402mAh battery that supports Warp Charge fast charging. It is said to deliver a week's battery life with 20 minutes of charge and a day's worth of power in just five minutes. The company claims that up to 14 days of the battery can be given to the watch. Smartwatch also carries 5ATM water resistance with Bluetooth, GPS, IP68 rating.

The wearable can also double as a remote control for the OnePlus TV. The company says that the OnePlus Watch Cobalt Limited Edition can turn off the TV 30 minutes after detecting that the wearer is asleep or reduce the volume of the TV when the wearer receives an incoming call on a connected phone.
