

Tesla To Launch Humanoid Robot Prototype Next Year

The robot with a human-like appearance would carry out the work people like to do least, with “profound implications for the economy,” Musk said at the company’s AI Day event on Thursday.

Tesla Inc Chief Executive Elon Musk said the electric automaker will probably launch a “Tesla Bot” humanoid robot prototype next year, designed for dangerous, repetitive, or boring work that people don’t like to do.

Tesla Inc Chief Executive Elon Musk on Thursday said the electric automaker will probably launch a “Tesla Bot” humanoid robot prototype next year, designed for dangerous, repetitive, or boring work that people don’t like to do.

A few years ago, Musk asked Tesla engineers “to design a superfast training computer and that’s how we started Project Dojo,” Tesla director Ganesh Venkataramanan said at the AI Day event.
