

Dell Launches New Alienware, XPS, and G15 Laptops In India

Dell has expanded its portfolio in India to offer new high-performance products with a focus on gaming. The new additions come as a part of the Alienware series and XPS series, alongside a new G15 gaming laptop. The Lineup includes the Alienware x15, Alienware x17, XPS 15, XPS 17, and G15. The new Alienware x15 R1 and Alienware x17 R1 are the newest addition to the Alienware lineup while the XPS 15 and XPS 17 have joined the existing XPS range along with the Dell G15 coming to the G-series.

The Alienware X-Series features the newest Cryo-Tec cooling technology along with the Legend 2.0 design. The Dell G15 comes with the newest Intel 11th Gen and AMD Ryzen 5000 series processors. And the Dell XPS 15 comes with up to 11th Gen Intel Core i9H processors. In comparison, the XPS 17 comes with up to 11th Gen Intel Core i9K processors.

The company has launched the Alienware x15 at Rs 2,40,990 in India. The highlights of the gaming laptop include an Intel 11th-gen i7 processor, 16GB DDR4 RAM and 1TB SSD, 15.6-inch FHD display and a backlit keyboard.

As for the Alienware x17, the flagship offering has been launched at Rs 2,90,990 and comes with 32GB DDR4 RAM, Nvidia GeForce RTX 3070 GPU and a 17.3-inch FHD display. It features a similar processor as above and also comes with a backlit keyboard with per-key AlienFX lighting.
