

Redmi 9 launched with impressive features

Xiaomi has launched Redmi 9 in Spain with several upgrades. The Redmi 9 comes with a new design inspired by the Redmi K30 series. The device is powered by the Helio G80 processor. It has been claimed that this is a feature-rich and budget-oriented smartphone. It has come up with a quad-camera setup and a rear fingerprint sensor.

Specification:

- The Redmi 9 runs on an unspecified version of MIUI. It has a 6.5inch Full-HD 1080p LCD and a middle hole-punch design. It supports 4GB RAM and 64GB storage and has an amazing battery life of 5020mAh which supports up to 18W fast charging. It has a waterproof display notch and comes with gorilla glass.
- This device comes with a quad-camera at the back with a 13-megapixel main camera, an 8-megapixel secondary camera, a 5-megapixel tertiary sensor, and a 2-megapixel fourth camera.
- For selfie, it has an 8-megapixel selfie sensor inside the cutout and it has some of MIUI's usual camera tricks, one of them being the Kaleidoscopic mode. It weighs 198 grams and is available in three colors: Karbon Grey, Sunset Purple, and Ocean Green.

Currently, it is launched in Spain and soon in the coming months, Xiaomi is planning to launch Redmi 9 in India. The smartphone is budget-friendly. It is available in two variants. The 3GB RAM + 32GB storage variant is priced at Rs 12,724 whereas the higher-end variant with 4GB RAM and 64GB storage is priced at Rs 15,389.52.
