

# Vivo Y12G Launched In India With Snapdragon 439 SoC

The new Vivo phone is available with dual rear cameras as well as a water drop-style display notch. The handset arrived in India without any launch announcement. It includes a Qualcomm Snapdragon 439 SoC and 20:9 display.

The Vivo Y12G competes against the likes of the Samsung Galaxy M12, Redmi 9 Power, and the Poco M2. The smartphone also appears to be identical to the Vivo Y12s that was launched in the Indian market in January. Smartphone has preloaded features such as Multi-Turbo 3.0 to customise the phone with its proprietary experience.

## Specifications of Vivo Y12G

The smartphone features a 6.51-inch HD+ IPS LCD display with 720 x 1600 pixels resolution and a 20:9 aspect ratio. The device features a side-mounted fingerprint scanner for security. The device is powered by an octa-core 1.95GHz Snapdragon 439 chipset coupled with 3GB of RAM and 32GB of internal storage. There is also a dual rear camera setup that includes a 13-megapixel primary sensor with an f/2.2 lens and a 2-megapixel secondary sensor with an f/2.4 lens.

The handset runs the FuntouchOS 11 based on Android 11 OS. For selfies and video chats, the Vivo Y12G comes with an 8-megapixel selfie camera sensor on the front, along with an f/1.8 lens. The smartphone is backed up by a 5,000mAh battery supporting 10W charging and 5W reverse charging. The battery claims to last for up to 16.3 hours of HD movie playback.

The smartphone measures 164.41×76.32×8.41mm and weighs 191 grams. It offers 32GB of onboard storage. The connectivity options include 4G LTE, Wi-Fi, Bluetooth v5.0, GPS/ A-GPS, FM radio, Micro-USB, and 3.5mm headphone jack. It also carries

Sensors on board including an accelerometer, ambient light, gyroscope, magnetometer and a proximity sensor.
