

15 Best Business-Related Podcasts Must Watch

Are you looking for business advice but don't have the time to read through long books and articles? We've got something just as effective: podcasts. Podcasts are a great way to hear from leading business minds that really know their stuff—all while multitasking.

Business-related podcasts can be great resources for staying up to date on industry news, learning the latest success strategies, and hearing inspiring stories of entrepreneurship. These days you can pretty much find a podcast about anything you're interested in—from marketing and finance to digital technology and customer service.

For business owners or anyone starting out in the corporate world, there is so much to learn and digest. If you are looking for some guidance, then it makes sense to listen in on some of the top overachievers in the business domain to get an idea of what it takes to succeed.

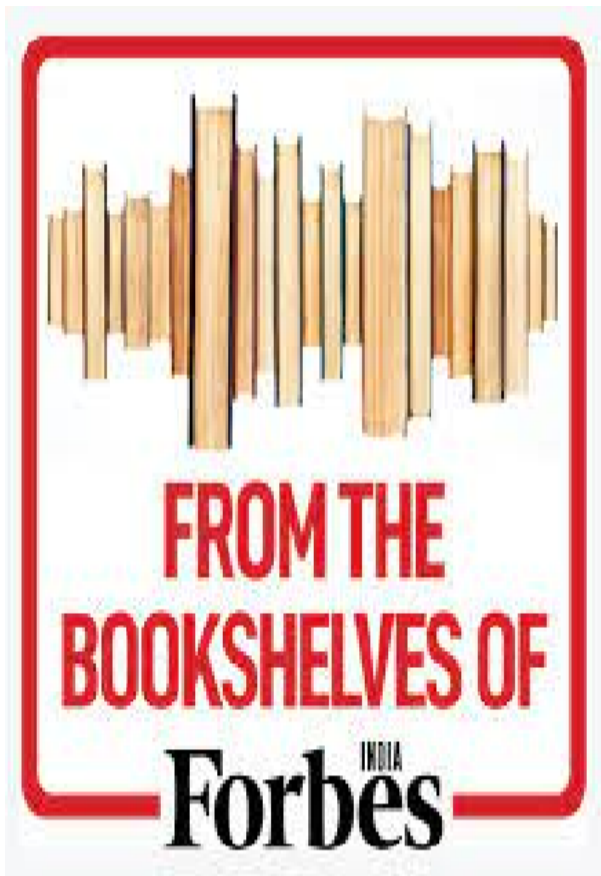

There are a lot of entrepreneurship podcasts available online. In fact, there were over 1.95 million podcasts worldwide as of March 2021, many with a focus on entrepreneurship guides.

It's sometimes hard to sort through which are going to be most helpful in building your venture. This list is an aggregation of the most-often-recommended business podcasts.

Here's our list of the best business-related podcasts that will help you reach your professional

goals.

1) From the bookshelves of Forbes India

Is a weekly podcast for book lovers and keen followers of world business and economy-related. Hosted by Forbes India's Pooja Sarkar, the series features insightful interviews with authors that take off from a hand-picked books collection that is fascinating and fresh, and hold relevance to current events.

Streaming platform: Forbes India's official website.

2) Figuring Out with Raj Shamani

This podcast is the basis of growing businesses and brands and is hosted by Raj Shamani who shares his own experiences as an entrepreneur and content creator.
